Introduction

GOOA | Global Office Of Architecture – a company providing international services in fields of architecture, interior design and project development.

We enjoy the work of coordination and interaction with varies interest groups, such as client, government, consultant, contractor, supplier and etc.

We aim to design livable and modern places by combining aesthetic and functionality. Sustainable quality, depth of content and designer power are important to us.

We offer the most individual assistance to our customers projects, based on the consideration of the program and the clients need, and the understanding of historic, cultural, social, climate and urban context of each project.

From the date of foundation works closely with "LAB255 Architertural Office" in Milan.
